LANZAROTE

Another riders classic where you will be riding if you dare for 53km. However, there are parts where you can ride back to the hotel early if you wish. This first place is at about the 17km mark and instead of going straight, you are to turn left. Then once you get to about the 47km mark outside the hotel, we have added an extra 6km which passes in front of the Montana Roja where you can really push yourself on some quiet roads. Bring your camera, and some money as we recommend stopping for a break in the wonderful seaside village of El Golfo.
