LANZAROTE

You cannot leave H10 Rubicon, and Lanzarote without visiting the ruins of the Playa Blanca area's Ghost hotel. It is a wonderful loop which first of all takes you up to the view on the top of Montana Roja (Red Mountain) before taking you through the volcanic trails of this sparse and uninhabited landscape. After 7km you will see the Ghost hotel appear and you will be drawn to its street art cement walls and windowless rooms. Some say it is haunted, we say you have to run by it to give you a wonderful kick of adrenaline on the way back to the hotel.

DISTANCE: 14 km

TOTAL CLIMB: 332 m

HIGHEST POINT: 158 m
