

# THE RUBICON CHALLENGE

# 12,5KM

## apollo sports

### LANZAROTE

We challenge you to try this run, preferably in the morning and see how far you can make it before your mind tells you that you have done enough. We have km marking at 2, 3, 4, 5, and 6km and it is up to you to decide when you are to turn around. It is along the cobbled stone walkway next to the water for most of the first 5km, before you run the last 1.2km (if you make it this long) inside the Rubicon Marina to the turnaround point at the helicopter pad 6.25km. A nice reasonably flat run with some amazing sights of Fuerteventura and the wide open ocean.

DISTANCE: 12,5 km    TOTAL CLIMB: 264 m    HIGHEST POINT: 14 m
